BRIEF HISTORY OF FOUNDER'S DAY

IN SILVERHILL

1945-----1975

Welcome to this 31st Annual Founder's Day Dinner. The first one was held in 1945 under the leadership of school principal Mrs. Wm. B. Wingard and P.T.A. chairman Mrs. Albert M. Philips, Sr. That first one was so successful financially, socially, and attractively that it has continued all these 31 years.

The Founder's Day Banquet was always held in the auditorium of our school until the school was destroyed by fire in November of 1955. For the next two years the Banquet was held in the PZK Hall, then for the next seven years it continued as a take-out or eat in the cafeteria dinner. For the years 1965 and 1966 the Banquet was held in the Baptist Church Multi-purpose Building. Since 1967 it has been held in the Robertsdale Coliseum.

At the first Founder's Day Banquet there were twelve tables decorated in the theme of the twelve months, with each table having twelve people. The next year a P.T.A. table was added because the first year had been such a success that more people wanted to attend. At this time Mrs. Finn Nitteberg and Mrs. Arnold Chandler decorated the stage and the auditorium and also prepared a program, with skits, plays, songs, dances, all having to do with the theme--months of the year. For some years there was also a children's table. After this more people were added to each table each year. This year there are 34 people seated at each table, and 60 at the P.T.A. table. In 1965 the P.T.A. changed the theme to nationalities. The tables are now decorated to depict something outstanding about each country, the serving girls dress in costume of the countries, and the dessert served at each table is typical of the country.

ADVANTAGES OF BULK AND BLEND

WHY BUY BAGS, WHEN CUSTOM-MIXED BULK FERTILIZER COSTS LESS?

Our story is simple . . . you save money because bulk materials cost less, so we can sell for less. No bags or bagging costs; no high handling costs. And you save in-field time because bulk handles faster . . . nothing to tear or tip.

No guess work in our program. We like to start with your soil test. Then we can custom-mix just the right blend of nitrogen, phosphate, and potash materials to give you exactly what you need. These materials are precision mixed to guarantee even distribution without separation. Our water-soluble mixes assure faster availability.
